CS IV a Communication with Families

Directions: In your words, describe the following: How do you ensure that families are kept aware of what's happening in their child's daily/weekly life in your program?

To ensure communication with families is kept, I provide them with a monthly newsletter. At the end of the day, I make sure to speak with the families about their child's day. Infants and toddlers get daily reports sent home with them every day.

Also, as I explained above with the communication, I keep them in the loop through conferences and allow them to know the areas of needs and focus on all times to not allow the child to fall behind in any specific area of progression. The child's evaluation is a part of the conversation and shows specifics about their development.
