CS VI a Early Childhood Professional

Directions: Reflect on why you choose to become an early childhood professional.

I have always enjoyed spending time with children in my family and while babysitting. I still feel like a child at heart and this comes out especially when engaging in play in the classroom! It felt natural that I would eventually become a teacher and I am happy to be a positive role model in children's lives. I truly believe that play should come first and all the "work" second. Play is the best way for kids to learn about their environment and about themselves and each other.

I am very thankful that I get to call my passion my career as well through being an educator.
