

Professional Portfolio

Directions:

1. Include activities that **YOU** have planned and used in past lesson plans in your program.
2. Indicate the age group (**preschool setting: 3s, 4s, or 5s**) **OR** (**infant or toddler**) and list the intended goals, materials and processes/teaching strategies.
3. Discuss why it is developmentally appropriate for that age group.
4. It is best to include a Visual/Sample/Picture of your activity and place it in a plastic sheet cover.

Be sure to save this assignment to print off and include in your **Professional Portfolio**.

Make sure that you scroll down and complete all parts of this assignment.

RC II-8 Social Skills	
Activity Social Skills: Solution Kit	Age Group - Preschool: 3 Years - Preschool: 4 Years - Preschool: 5 Years
Objective The intended goal is to provide children options to solve conflicts that may arise in the classroom with their peers.	
Materials Needed -wooden box -visual cards with solutions	
Process and Teaching Strategies The best process in teaching these solutions to kids is to slowly introduce one solution per day and to revisit and have it displayed in an appropriate area around the classroom. When a conflict arises, I like to remind the children by saying "do you remember what we learned in circle time, and what we can say to our friend when we don't like what they are doing?" They might remember and respond or you can take them over to the safe place and show them the cards and have them act it out. Eventually you will see children using these on their own with little teacher help.	
How is this activity Developmentally Appropriate? Children in this age group are usually self-centered and will need modeling on how to speak and communicate their feelings towards others. They are also learning about spatial concepts and the rules or expectations of the classroom.
